SUMMARY

Experienced front-end developer with deep expertise in React, Redux, and Angular, creating dynamic, responsive, and high-performance web applications. Skilled in optimizing user experiences and developing scalable solutions. Proven ability to collaborate with cross-functional teams to deliver projects that boost user engagement and meet business objectives.

SKILLS

Programming Languages: JavaScript, TypeScript
Web Development Framework: React, Next.js, Angular, NodeJs
Styling: CSS/SCSS, Tailwind CSS, Material UI, Bootstrap
Version Control: Git
Database: MongoDB
Agile Methodologies: Scrum, Kanban

RELEVANT EXPERIENCE

Statiq   May 2023 – Present
Software Development Engineer 2 – Gurugram, Haryana
- Optimized application performance by upgrading major libraries to the latest versions, refactoring code, and implementing best practices.
- Developed a ticketing tool that automated the charger deployment process, reducing team workload by 50%.
- Defined project scopes, prioritized tasks, and ensured timely feature delivery in collaboration with product managers and stakeholders.
- Implemented caching strategies with RTK Query to improve data fetching efficiency and reduce unnecessary API calls.
- Conducted code reviews and collaborated with team members to ensure high-quality, maintainable code.
- Bridged design mockups with high-performing web pages, ensuring cross-browser compatibility and optimized load times.
- Mentored junior developers, providing guidance on best practices and technical solutions.
- Collaborated with DevOps team to automate deployment processes, reducing deployment time by 30%.

Mindfire Solutions   Nov 2022 – April 2023
Software Engineer – Remote
- Implemented RESTful APIs to enhance frontend and backend integration, boosting system performance and reliability.
- Developed and maintained scalable web applications using Angular, ensuring seamless functionality and responsiveness.
- Worked closely with the UX/UI team to implement responsive designs and ensure a positive user experience.
- Conducted unit testing and debugging to ensure the stability and reliability of software applications.

Auriga IT   July 2021 – October 2022
Associate Software Engineer – Jaipur, Rajasthan
- Designed and developed a React-based platform for a client in the finance industry.
- Assisted in the migration of legacy systems to modern frameworks, improving maintainability and scalability.
- Integrated third-party services using RESTful APIs, including social media platforms and payment gateways.
- Implemented responsive designs using React and Bootstrap.
- Collaborated with QA engineers to identify and resolve software defects in a timely manner.
- Contributed to improving development workflows and documentation.

EDUCATION

Lovely Professional University – Phagwara, Punjab   2017 - 2021
Bachelor of Technology in Computer Science and Engineering
